LOCALETS.

For the first time in ten years this part of Alberta enjoyed a general rain carried by momentum sufficient for a twenty-four hour downpour. Consequently optimism reigns supreme, the blown areas are being re-seeded and farmers' wives are coming to town. The rain was general and the entire province gives promise of a wonderful crop.

The rain spoiled the U. F. A. political meeting billed for Lomond on Saturday, the 19th. Strange as it may seem, one heard no regrets about it either. O. L. McPherson, the candidate is holding a meeting in Lomond this afternoon.

From the point of attendance in spite of it being an afternoon meeting, today's meeting was the most enthusiastic held here during the campaign. Mr. McPherson very ably defended the policy of his government and answered great volumes of criticisms that had been hurled against the administration by the party press and leaders. His talk was strictly to the business aspects of the campaign.

Jas. McNaughton, the Liberal candidate, was received by a fair sized meeting of electors in Lomond Tuesday night. Mr. McNaughton is always kindly received by a Lomond audience and got away himself to a very good start in his offensive against his two opponents. His supporter, Mr. Clifford Jones, used the time at his disposal in giving a eulogy of Joe Shaw and condemning the administration in power.

Mrs. Davidson, demonstrator of practical millinery came to Lomond last week to hold classes under the auspices of the Lomond and Midway U. F. W. A. locals. There was some

confusion in arrangements, but very successful classes were speedily organized after her arrival here.

Don't forget that Milo is billed to play in Lomond on the afternoon of Wednesday, July 14th.

Stanley Clarke at Travers has moved into the Standard Bank building and opened up with a full line of groceries.

The jury returned a verdict of not guilty in the Tulloch case this afternoon. The case occupied all yesterday and today in the hearing, but no details of the affair are available for the issue now printing.

H. N. Hanna, H. Erskine, W. B. Manning and Jos. Rodgers were in attendance as witnesses.

Born, on Monday, June 21st., to Mr. and Mrs. Thos. Lucas, a daughter.

W. A. Teskey is all loaded up and ready for Didsbury early Saturday morning.

Chas. and Wm. Honess are each driving new Ford cars, purchased through W. H. Smith.

R. B. Bennett addresses a Conservative rally in Vulcan Saturday night.

The Lomond Trail Rangers are planning a week in camp some time during the holiday season.

Drillers in the Turner Valley are trying hard to bring in a gusher while the stampede is on in Calgary.

Mrs. B. King, Mrs. W. A. Newton and Miss Nora Newton will leave for Ontario in a few days taking advantage of the mid-summer excursions.

VOTE 1 FOR McPherson

In voting for a candidate an elector should exercise the same care as he would if engaging a manager for his business.

The main question should be "What are his qualifications and his record?" You judge a prospective employee, not on what he promises to do, but what he has done.

The Liberals have a record of sixteen years of office in this Province. This record they do not and cannot defend. The public, however, has not forgotten it.

The Conservatives have no record at all. Their return, as that of the Liberals, would mean a return to the party system and all that it implies.

The U. F. A. ask for your vote on June 28 on their record for the past five years. They offer a continuation of sound business administration for the benefit of the people of Alberta as a whole, and not, as in the party system, for the benefit of party friends.

The only argument Liberals and Conservatives offer is that of promises. The Government's argument is performance.

During the past five years the cost of administration has been reduced 14 per cent., the Civil Service has been transferred from a basis of patronage to a basis of merit, a real highway policy has been put into effect, health and education services have been increased, etc. Efficiency is much greater in every department of governments as a result of transference from a basis of party favoritism to one of business administration.

Who Balanced the Budget?

The Press has listened with a good deal of interest to the political attacks and counter-charges over the balancing in 1925 of the Alberta provincial budget.

The government did not anticipate a balanced budget early in the fall. Their political opponents were planking their platforms with balanced budget propaganda. Then when the books closed for the end of the year the government found a surplus of funds on hand. The government announced the result with justifiable pride. The political opponents accepted warily, immediately setting up a charge of pre-election intrigue. So, in the opinion of this paper, it is doubtful whether the balanced budget has really been a political asset to present government.

Who really did balance the budget?

Go to the offices of the municipal district secretaries and you will learn that thousands upon thousands of parcels of land were redeemed from under the provisions of the Tax Recovery Act before December 15 last. In other words, conditions taking the province as a whole, were decidedly optimistic. The land value securities were revived and protected. Commerce became enlivened from the generous circulation of crop returns and the province found itself well under way toward an era of prosperity.

The government undoubtedly was making an honest effort to attain to a balanced budget; but ninety million bushels of wheat sold at fair prices really turned the trick.

(To substantiate the above article it might be stated that the Municipal District of Clifton forwarded to the Department of Municipal Affairs in December last collections amounting to nearly ten thousand dollars. That condition was general all over the province.)

This issue of The Press signifies extreme commercialization towards the promotion of the election campaign. We know of no better way to reach the people.

LORD WILLINGDON, prominent British statesman, who has been mentioned as a possible successor to Lord Byng as Governor-General of Canada, is now in the Dominion on his way to China on a mission for the British Foreign Office in connection with the Boxer indemnity. Lord Willingdon is seen here in a coon coat which he secured in Montreal and which he is thoroughly enjoying during his trip across Canada by Canadian National Railways in company with Lady Willingdon.

During their visit to the Dominion, Lord and Lady Willingdon are being entertained by the Governor-General and the Lieutenant-Governors of Ontario and Manitoba, spending a day in Winnipeg, and a short time in Vancouver and Victoria before sailing for the Orient.

They are accompanied on the rail journey by Mr. C. K. Howard, Canadian National general tourist agent.

Lord Willingdon, who is Lord-in-Waiting to His Majesty King George, and whose home is at Hastings, England, has been Governor of Bombay and Madras. He was largely responsible for the return of the escutcheon of the City of Quebec from the City of Hastings. This escutcheon, which was removed at the time of the British conquest of Canada, was held until last fall by Hastings, when, through the efforts of Lord Willingdon and Hon. P. C. Larkin, Canadian High Commissioner in London, it was returned to Quebec.

Here and There

Vaper Valley, a virginal tract of land 135 miles from Vancouver, between Fort Douglas and Lillooet on the Canadian Pacific Railway line, is to be the location of a large medical sanitarium and hunting lodge which is to be established this summer by a syndicate of Vancouver men.

General conditions on the prairies and in British Columbia indicate that Western Canada is headed for a period of real prosperity. Charles Murphy, general manager of the Canadian Pacific Railway, Western Lines, after a periodical trip of inspection, stated that farmers and business men alike have not been so optimistic on the prairies in years.

On March 3 a crowd of representative citizens gathered at the Canadian Pacific depot at Vancouver to welcome His Honor Lieutenant Governor Robert Randolph Bruce, of British Columbia. Forty years ago the hardy Scot left his ancestral home in Invermere, Scotland, to seek his fortune in the Canadian West. He found it.

During the month of January 1926, 15,706,700 pounds of refined sugar valued at \$960,483 was exported from Canada as compared with 197,400 pounds valued at \$14,893 for January 1925. Of the total amount the United Kingdom took 11,750,000 pounds while Sweden was second on the list with 2,250,000 pounds.

A commission of three professors in agriculture will make a survey of the province of Ontario to ascertain the soils best adapted to the culture of tobacco. The commission will act under instructions from the Minister of Agriculture. Soil tests are to be made on various farms and also at the government experimental stations within the tobacco districts.

Government statistics show that the average wages per month paid to farm helpers in the summer of 1925 over the whole of Canada was \$40 for men and \$22 for women. The value of board received was reckoned at \$23 for men and \$19 for women. The total received, therefor, for wages and board in 1925, was \$63 per month for men and \$43 for women.

Twelve Reasons for Electing Liberals

1. The Liberal Party stands for a more business-like administration of Alberta affairs. The present government is without business ministers, without business experience and has been without business success. It is a Class Government which is divorced from business entirely.

2. It stands for greater economy in administration. The present government has increased the debt of the province in five years by \$22,000,000, with nothing permanent to show for it. It has been more extravagant than any previous administration, or any other in Canada.

3. It stands for more progressive administration. The present government has nothing to show for its five years of office. It has passed no constructive legislation. It has delayed all the serious problems.

4. It stands for more active development of the unsettled areas. The present government has made no advance since it took office.

5. It stands for better development of agriculture. Capt. Shaw objects to bringing the pools into politics, but his record as a member in Ottawa shows his enthusiasm for co-operative marketing, his vigor for cheaper transportation rates, his insistence on the removal of all the burdens which have been preventing development.

6. It stands for better educational facilities. The present government has been sacrificing education and burdening the department with useless educational fads.

7. It stands for better health organization and encouragement for hospitals. There has been no development in the health department since 1921.

8. It stands for honest and efficient administration. A fair distribution of the expenditure on public works.

9. It stands for honest distribution of the province into ridings.

10. It stands for justice to the returned man in the province.

11. The record of the Liberal party has been one of development and progress. It has to its credit:

1. The settlement of the province.
2. The organization into municipalities.
3. The destruction of railway, lumber and telephone monopolies which threatened its destruction in the early days.
4. Farmer legislation such as co-operative elevator act, the farm machinery act, direct legislation.
5. The beginning of labor legislation, which has remained unimproved. This includes the Factory Act, the Workmen's Compensation Act, and other similar legislation.
6. The development of the vast Peace River area.
7. The organization of schools, the creation of the Provincial University, the Institute of Technology and Art and the Farm Schools.
8. Franchise for women and all legislation safeguarding the rights of women.
9. Hospital legislation and all progressive health legislation.
10. Soldier relief legislation.

12. It has at its head a man who has wide experience in legislation, who has at his back outstanding representatives, not of one class alone, but of all classes in the province—farmers, labor men, business men and professional men.

Pie, Cake and Applesauce

The Press has repeatedly heard voters questioning the "why" and "how" of the new type of ballot they will be called upon to mark when they attend the polls on Monday, June 28th.

"Why"—in modern political development the people have overstepped the confines of the two-party method of giving expression to political opinion. In the words of the physiologist, a complex has been added to the situation. In recent federal elections many a constituency was contested by three candidates, and in many cases the candidate declared elected by no means secured an actual majority of the votes cast within his constituency, but rather, only the highest number obtained by any one of the three candidates—or under the new ballot, the highest number of first choices. The successful candidate is actually a minority representative, at least as far could be ascertained from the expression given under the old X ballot.

"How"—just supposing the case—and there are 1800 votes to be cast within this constituency on Monday next. PIE, CAKE and APPLESAUCE are contesting the election. Should any one of the three candidates obtain 902 No. 1 ballots he would be declared elected without further count. His election would clearly be by a majority.

But, supposing PIE received 601 No. 1 ballots, CAKE 599 No. 1 ballots and APPLESAUCE 600 No. 1 ballots. The No. 1 ballots for CAKE are declared exhausted by reason of his minority. But CAKE had a bunch of "plumper" votes, so those people who "plumped" for CAKE by their own action lost all voice in the election. When the second count was made 275 voters said by marking No. 2 on their ballots that if they could not get CAKE they would rather have APPLESAUCE. So 275 was added to APPLESAUCE's first count, giving him a total vote of 875. Only 200 CAKE supporters signified a second preference for PIE, so his total count was but 802. APPLESAUCE is declared elected, even though PIE received the lead in No. 1 ballots, the relative standing of

final count being 875-801.

It will be seen that 124 voters that "plumped" CAKE, had they used their right of second choice, might easily have altered the final result. Therefore, the ballot fails to function to the full of its intention unless every voter marks his ballot to signify his preference. In a constituency where but three candidates are running, such as here in Little Bow, 1 and 2 only need be marked on the ballot as a second count must finally determine the result.

BUT do NOT mark X.

DEFAMATION CASE

Lethbridge Herald.—Convicted on her own admission of guilt and that the statements were false, Mrs. Emily Lee Jones of Lomond was fined the costs of the court, \$140.30 in all, for defaming the character of Frances Larsen, a young teacher at Lomond. There were five charges in all, the defendant being convicted on the first charge, with imprisonment sentence suspended on the charge, and on each of the remaining charges, for a year. Both she and her husband were bound over in \$300 each to keep the peace for a year. The first offence consisted in sending thru the mail to Medicine Hat a letter to Mr. and Mrs. Larsen, defaming the character of their daughter. The remaining letters were anonymous, and one was directed to the secretary-treasurer of the school district.

Vote for Progress

The need of Alberta is for a government elected solely in the interests of the people of Alberta, not to gratify party ambitions, nor to supply jobs for party workers. A system that sets farmers against each other on opposite sides of the legislature is not in the economic welfare, and puts forward all the political pressure it possibly can.

Remember what happened in Alberta under the party system, the printing scandal, the railway muddle, the Athabasca and Peace River elections, the patronage distribution of the taxpayers' money for jobs and public works, etc., etc.

Here are a Few Comparisons between the Party System and the U.F.A. System of Business Government :---

Land Titles Office Costs, 1921 \$241,909, 1925 \$156,753; Election Costs, 1921 \$248,000, 1923 (Plebescite) \$133,000, 1926 Election Estimate \$130,000; reductions in controllable expenditure, 1921 to 1924 inclusive, Alberta 14 per cent., Saskatchewan 12 per cent., Manitoba 8½ per cent., all other provinces increases. Cost of educating 320 agricultural students, 1921 \$191,000, 1925 \$103,000 for 360 students.

Had to Say of Capt. Shaw Liberal Leader

as Late as September 15, 1925

CAPTAIN SHAW

"The announcement that Captain Shaw, who has represented West Calgary in the House of Commons as an Independent member for the past four years, will not be a candidate in the forthcoming election will be received with the deepest regret, not only in all parts of Alberta, but among forward-looking people throughout the Dominion.

"Capt. Shaw's withdrawal from public life would be a very serious loss to Canada. He made his mark in the last parliament, and he is recognized today as a parliamentarian of independent spirit and of outstanding ability and courage. He is one of a still small group of men in the federal sphere who have been paving the way for a real advance from the petty personal politics of today, to constructive and genuinely progressive statesmanship. His early return to public life will be hoped for by all who are familiar with his record of service in the parliament recently dissolved.

"Since the announcement of Mr. Shaw's intention not to be a candidate very great pressure has been brought to bear upon him in Calgary in the hope that he will reconsider his position. We trust that he may yet decide to allow his name to go before the electors on October 29th."

Capt. J. T. Shaw

MARK YOUR BALLOT THROUGH

Do not be satisfied by marking No. 1 for your own party, but mark your second choice of the other two candidates.

Marking Your Second Choice

In no way interferes with your first choice. Your first choice is not eliminated unless your candidate is the low man. If you "plump" for one candidate, it means merely that you make no second choice of the other two, if your candidate should be eliminated.

Vote 1 for the Liberal Candidate

If you have determined to vote No. 1 for another candidate, then vote No. 2 for the Liberal Candidate.

Conservative Principles are Restated by the Conservative Leader

A. A. McGillivray Sets Forth in Plain Language What the Provincial Conservative Party Stands for in Coming General Election.

Co-Operative Marketing Extension is Advocated

Proportion of Moneys Expended on Roads to Go Toward the Maintenance of Country Roads as Well as Main Highways---Encourage the Inflow of Capital and Immigration to Supplement Efforts of the Dominion Government.

SPEAKING at Rockyford on Thursday afternoon, June 18th, in support of Hugh Miller, Conservative candidate in the Gleichen riding, A. A. McGillivray, leader of the provincial Conservative party, reiterated the items in the policy of the party that he has stated from different platforms in Alberta since being elected leader in August, 1925.

In his usual fighting style, Mr. McGillivray reviewed the record of the old Liberal administrations and the record of the present government. Summing up his appeal to the electorate following the declaration of political principles, Mr. McGillivray said the Liberal party cannot go back into power and its record cannot be hidden under the cloak of one new convert.

Give Them Chance

The present government has failed to cope with public questions, the chief of which are redistribution, the northern railways, natural resources and the finance problem that it has had to face, then why not give the provincial Conservative party a chance to demonstrate what it can do? Mr. McGillivray left here at 8 p.m. for Open and other points in Arcadia riding.

In reiterating points in the Conservative policy that have been enunciated by him from many platforms since he took the leadership of the party in August, 1925, Mr. McGillivray said: "I have not gone in for the form of political advertising that is known as the manifesto. I observe that the Liberal leader leaned toward them in 1921. He issued one which commenced as follows: 'Truer representative government to replace the party system. Independent candidate in West Calgary outlines constructive proposals for the establishment of a democratic government freed from partisanship and partyism. Proportionate representation truly reflects popular will. Patronage system which is vital to the maintenance of party system, and is today a national scandal, will disappear under the reformed method of election.'"

"In so much as the new manifesto of the Liberal leader commenced as follows:

"'Liberal manifesto—J. T. Shaw, Liberal leader, issues statement of party policy,' and in so much as this latest manifesto by Mr. Shaw, in so far as it does not consist of copy-book platitudes and glittering generalities, is partly taken from the pronouncements of the Conservative party, it may be well for me to re-state the position of the Conservative party upon some of the provincial issues, a position

taken and given public expression to on the platforms of this country at times when Mr. Shaw was still an independent.

Conservative Platform

"The provincial Conservative party stands for the following:

"1. Redistribution whereby the number of constituencies will be reduced so that there will not be more than 45 members in the legislature. This reduction to be made having due regard both to population and to the sparsely settled areas.

"2. Reduction in the amount paid as sessional indemnities of members by \$500.

"3. A determined effort to make of the United Farmers of Alberta organization something more than a mere political machine and to advance its development along social and economic lines.

"4. The encouragement of co-operative marketing. Even as supporters of the Conservative party brought Sapiro to Alberta without thought of political advantage, so will the Conservative party support any movement for the benefit of the farmers, without seeking political glorification.

Money for Roads

"5. A fair proportion of the moneys expended on roads being deflected from spectacular trunk roads to farmers' market roads.

"6. In so far as it lies within the legislative control of the province, keeping check over grain elevators with respect to the weighing and grading of grain.

"7. A real soil survey of the drouth areas of the south by the greatest agriculturalists available.

"8. Putting our provincial telephone system on a business basis.

"9. Furthering any practical scheme providing for rural credits.

"10. Equality of men and women under the law.

"11. A recognition of the fact that labor unions are as much an essential product of modern economic life as are the large corporations and that they tend to bring about equality in wage bargaining that would not exist if the individual had to bargain with

the great corporations.

Right of Appeal

"12. Providing a right of appeal under the Workmen's Compensation Act from an automatic compensation board.

"13. Raising the scale of compensation for railwaymen in non-negligence cases to the level enjoyed by other classes of workmen.

"14. Equitable distribution of the burden of taxation for upkeep of the schools.

"15. A most careful consideration of all possible ways and means for providing security of tenure and a practical pension scheme for teachers.

"16. An examination of the school courses by education technicians with a view to making certain that our student body is not faced with an overloaded curriculum.

"17. Revaluation and sale on proper terms of the E. D. & B. C. and Central Canada railways, with a consequent saving of nearly one million dollars a year.

"18. The obtaining of our natural resources on fair and equitable terms without any school question or other strings attached thereto. (The provincial Conservative party has stood for this since 1905.)

Balancing the Budget

"19. The yearly balancing of the budget. In September, 1925, while advocates of this government were still saying that it could not be done without injuring essential services, the Conservative party took the position, as it does now, that the budget could and should be balanced in each year.

"20. A complete reversal of the former Liberal and present government's attitude toward capital by encouraging in every possible way those who have money to invest in the exploration and utilization of our natural resources of all kinds.

"21. A provincial immigration and colonization policy to supplement the efforts of the Dominion government to get people and to retain them when we get them here, so that with more people amongst whom to distribute the load, we may hope to cope with our debt and our ever increasing burden of taxation. The provincial Conservative party is determined to bring about an inflow of capital and of people, because the future prosperity of our people is inseparably associated with these.

"22. One system of voting for both city and rural constituencies.

"23. An immediate decision as to the Spray Lakes water power project.

"24. More local autonomy in municipal affairs."
